

DIVYANSH AWASTHI

Lucknow, Uttar Pradesh | +91 9528545302 | divyanshawasthi90@gmail.com | LinkedIn | GitHub | Portfolio

Computer Engineering student and AI/Full-Stack Developer specializing in **Data Science** and scalable web applications. Experienced in developing predictive models, backend APIs (Next.js/FastAPI), and AI integrations including **LLMs**, **RAG**, and asynchronous task processing.

TECHNICAL SKILLS

AI & DATA SCIENCE

Generative AI (Gemini 1.5/2.0, OpenAI), Hugging Face, RAG, LangChain, TensorFlow, PyTorch, Scikit-learn, NLP, Computer Vision, Vector Search

BACKEND & SYSTEMS

FastAPI, Node.js, Express.js, PostgreSQL (Row-Level Security), Redis, Celery (Task Queues), SQLite, REST APIs, Microservices

WEB DEVELOPMENT

Next.js (14–16), React 19, TypeScript, JavaScript, Tailwind CSS 4.0, Three.js (React Three Fiber), GSAP, Framer Motion, HTML5/CSS3

LANGUAGES & TOOLS

Python (Advanced), C++, SQL, Docker, Git/GitHub, Linux, Vercel, Render, CI/CD

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer | Mowglai.com (Startup)

Dec 2025 – May 2026

- Built and deployed a **Next.js 16** frontend with interactive 3D (**Three.js**) and GSAP animations, creating a high-performance user interface.
- Engineered Server-Side Rendering (SSR) to **reduce page load times by 40%** and managed data integration from Figma designs to PostgreSQL databases.

FEATURED PROJECTS (AI & SYSTEMS ARCHITECTURE)

GET IT! | Recruitment Intelligence Ecosystem

Next.js · FastAPI · Python · SQLite · Gemini 2.0

<https://div0011.github.io/AI-POWERED-RESUME-ASSISTANCE/>

- Achieved **99.9% uptime** and **400% higher request resilience** by building a model-rotation API layer across Gemini models.
- Reduced screening time by **35%** by developing a hybrid candidate ranking engine using keyword constraints and vector similarity scoring.

GUARD IT! | Multi-Tenant AI Content

FastAPI · Next.js · PostgreSQL · Redis · Celery · Docker · Hugging Face

Moderation SaaS

<https://div0011.github.io/GUARD-IT/>

- Ensured **100% data isolation** using PostgreSQL Row-Level Security (RLS) for multi-tenant users.
- Maintained sub-**50ms content moderation response latency** and zero downtime by building an asynchronous fallback routing system.

STORE IT! | AI Document Storage

React · FastAPI · Gemini 2.5 Flash · AES-256 Encryption

<https://div0011.github.io/STORE-IT-/>

- Reduced OCR document processing latency by **50%**, handling files up to **10MB in under 2 seconds**.
- Secured file vault with AES-256 encryption, eliminating sensitive data leakage via real-time PII detection.

LeadGenius | Automated Outreach Pipeline

FastAPI · Celery Beat · PostgreSQL · SMTP/IMAP

<https://lead-gen-iota-flame.vercel.app/>

- Built an outreach automation pipeline using Celery and Redis, scaling outbound processing to **10,000+ validated leads per day**.
- Boosted follow-up engagement by **25%** by implementing email sentiment analysis to automatically classify replies.

EDUCATION & CERTIFICATIONS

Bachelor of Technology (B.Tech) in Computer Science Engineering | Babasaheb Bhimrao

2024 – Present

Ambedkar University, Lucknow

Certifications & Ongoing Studies: Data Science with Generative AI (PW Skills) • Data Structures and Algorithms with Python

- Advanced Web Frameworks (Next.js 16, React 19, Full-Stack Architecture)
